

# Peppermint Crunch Cookies

**Need a super easy cookie?  
Boxed cake mix comes to  
the rescue!**

2 eggs

1/3 cup vegetable oil

4 teaspoons peppermint  
extract

3-4 drops green food  
coloring

1 tablespoon water

1 box (16.5-18.5 oz) white  
cake mix

2 cups (12 oz) white  
chocolate chips

1/2 cup (approximately)  
crushed candy canes or  
mint candies, divided

*Preheat oven to 350 degrees. Line baking sheets with parchment paper (this is important- nothing dampens the holiday mood like trying to scrape melted candies off of your good baking sheets!)*

*In a large bowl, stir together all of the wet ingredients. Stir in the cake mix, chips, and 1/3 cup of the crushed candies. Mix until well combined.*

*Roll into 1 1/2" balls and place about 2" apart on baking sheets. Sprinkle tops with remaining crushed candies (press into dough lightly.) Bake about 8 minutes until just set but not brown. Cool on baking sheet about 2 minutes, then remove to cooling racks.*

*Makes about 4 dozen.*
